EC MONITORING MISSION
Attn. Mr. TIBOA

Dear Sir,

May I ask you to make additional effort and bring your personal authority to bear on representatives of the Command of the 3rd Corps with a view to implementing the agreements that have been reached.

You are, I trust, aware that representatives of the Croatian and Muslim peoples (political and military) have officially agreed provinces: 8, 9 and 10 in line with the Vance-Owen Plan.

Since delaying activities in this field entails the suffering of people, the destruction of property and aggravates problems related to the organisation of normal life, I should like to ask you once again to draw the attention of the Command of the 3rd Corps to the emerging consequences and the responsibility they will bear for obstructing the implementation of the agreements that have been reached.

I suggest that you initiate a joint meeting to identify any unclear and controversial details preventing the realisation of the agreement and giving rise to violations thereof.

Respectfully,

DD/KB
