INVESTIGATION OF ATROCITY

1. At 1400 hours today I visited the village of Ahinici.
2. In one house I discovered the bodies of a man and a boy at the front entrance. Both bodies were burnt beyond recognition. In the cellar I found the bodies of what may have been a mother and at least five children. Again the bodies were burnt beyond recognition and it was clear from the angle of the heads that at least two had died in agony.
3. Whoever has done this is guilty and must be punished. No atrocity wherever it occurs is acceptable.
4. I urgently request your help in order to investigate the sacking of this village.

Robert Stewart
