U N P R O F O R

lt.col. ROBERT STEWART
BRIT. BAT. COMMANDER

1. I am ready to send immediately the investigating commission to village of Ahmići as well as to all other places that need investigated because of gathering facts about all the innocent victims this conflict.

I myself beg You to help us stop this suffering and make the adequate conditions for the commission to work properly.

As stated by both A BiH and HVO, everybody seems to be right, smaller fightings are still going on, threatening to grow into the catastrophe and the disaster for all the people of this region.

2. I suggest that a new meeting is urgently summoned between the Head of Staff and the HVO Head of Staff, together with the commanders of HVO operational zone Middle Bosnia and the commander of the 3rd Core, since I think it might prevent this from growing into even worse disaster which would be totally out of anybody's control.

3. I consider You to be an utterly honourable and professional soldier which gives me the cause to beg You as a man begs a man, please intervene in our further negotiations, together with Mr. Thebaud.

Thankful in advance,

With respect,

Col. Tihomir Blaškić
